

Office Space at DSFL

We have within our premises a secure lockable office space equipped with desks, ample storage, WiFi and a photocopier. This space is available to rent for individuals and groups organising around social change, or anyone with a socially progressive output who would like to work amongst others with the same goals.

Interested? You'll need to be a member of DIY Space for London

Details:

Type of User	Price per desk per day per week (max 8 hours, spread across a week is fine if agreed with other residents)	Monthly Cost
Unincorporated group or campaigning group with no income	£15.00	£60.00
Group or org with charitable, social business status, links to a company or regular income	£30.00	£120.00
Profit making group or organisation	£60.00	£300.00

This cost is inclusive of a contribution towards DSFL's bills and overheads. It also works towards subsidising meeting room space for those who cannot afford to pay.

This cost is paid monthly by standing order to DSFL and includes a three month renewable contract. This cost is for any working hours between Monday and Friday between 8am and 6pm. Larger meetings outside of these days in the room would be additional, and need to be cleared via the Community Collective as external groups pay a donation to use the room.

You can receive post to DSFL, but it must read 'You c/o DSFL' and you are not legally able to have our address be your registered business or postal address.

As DSFL is a collectively run space, as part of being a Resident, you'd be self-organising with other residents to make your room run however you like it, and communicate about your office hours internally together to make it work for all. You'll have a key to the space and will be fully briefed on our fire and safety procedures.
